The above-mentioned prices are valid at the time of writing and may be subject to change. The prices are estimates depending on the current exchange rate.

Insurance

Liability insurance: We recommend that you have liability insurance. If you cause an accident and are liable according to law, your insurance will cover it, if you have one. (If you damage the properties of the school or others, you will be held accountable).

Insurance of belongings: You should also have insurance covering your own belongings, for instance in case of theft. Most students will be covered by their parents' family insurance.

Personal accident insurance: It is also a good idea to have personal accident insurance that covers injury to yourself. Please confirm this with your own insurance company, in your own country, to make sure that you are insured in all circumstances.

Travel Insurance: The school has taken out travel insurance which covers the students during the school trip, but remember to bring the yellow and blue health insurance certificate (which you will receive after your residence permit is granted) or equivalent private coverage.

If the student suffers from illness, it is important that you yourself investigate whether a pre-authorization is necessary. You can then contact SOS International phone +45 38 48 82 50 to inquire about the pre-approval procedure and to inform them the school's insurance company and policy number: *Risk Point - Police number 95952-16836*. If you have taken out travel insurance yourself, you can contact your own insurance company and get clarity on the procedure. If you get a full or partial rejection of a pre-approval and yet choose to go on the school trip, the financial risk is of your own expense and costs in this regard are not covered by the school.

Danish Health system: You are also able to become registered in the Danish healthcare system and get a yellow health insurance card. It is your own responsibility to obtain it. Please refer to the procedure sent to you by email, when enrolling. Transport to doctor the school will cover student travel expenses to/from the emergency room for acute injuries, but students must cover the costs when going to the doctor's office or for routine check-ups in hospital, etc.

Please notice that you need your own health insurance in the start of the course until you are registered in the Danish Health insurance system.
